3 teaspoons = 1 tablespoon

2 tablespoons = 1/8 of a cup

Mr. Pig needs to measure 1/4 cup of olive oil plus 2 tablespoons. How many tablespoons is this all together? How many teaspoons?

Mr. Pig wants to add 5 tablespoons of chili powder. But all he has for measuring is a teaspoon. Draw the correct number of teaspoons which equals 5 tablespoons.

Mr. Pig needs to add 6 cups of beans to the chili. He only has a 1/3 cup measure. Draw the correct number of 1/3 cups he will need to measure to equal 6 cups of beans.
