* The piglets played the 'Ring-A-Bottle' game. They split a bucket of 40 rings. Do they each have an equal chance of ringing a bottle? Explain.

* Mr. Pig played the basketball game. He bounced the basketball into the basket on the first try. "Lucky shot," said the piglets. "Do it again!" Mr. Pig tried 7 more times but failed to land the ball in the basket. Were Mr. Pig's odds of winning equal each time he played the Basketball Bounce game? Explain

  Do you think the Basketball Bounce game is a fair game? Explain.

* Mr. and Mrs. Pig took a chance on the spin of the wheel. They each put down one quarter at four different times, but the Birthday Game Wheel never landed on the right space. Were Mr. and Mrs. Pig's odds of winning equal each time they played? Explain.

  Do you think the Birthday Game is a fair game? Explain.
