
How Many Miles?

The Pigs flew 1,750 miles from Alamo City to City by the Bay. Next they flew 1,120 miles from City by the Bay to Mile High City. Then they flew 1,050 miles from Mile High City to Windy City. And last, they flew another 1,050 miles to Bean Town.

How many miles did they fly in all? Show your work.

Suppose the Pigs' route was Alamo City to City by the Bay and then to Mile High City. How many miles would they have flown? Show your work.

Suppose the Pigs flew from City of the Bay to Mile High City and then to the Windy City. How many miles would they have flown? Show your work.
